Changes Effective 01/01/2016

The Wilson County Codes Department will no longer accept engineered footings in lieu of footing inspections. All Footings will be inspected for code compliance and Building Permits will be issued at that time. Also, lots must be clearly identified with either lot or proper address upon footing inspection, or, inspection will fail. Proper address is always preferred, as this is what first responders are looking for.

- **SECTION R319 SITE ADDRESS**

R319.1 Address numbers.

Buildings shall have *approved* address numbers, building numbers or *approved* building identification placed in a position that is plainly legible and visible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numbers or alphabetical letters. Numbers shall be a minimum of 4 inches (102 mm) high with a minimum stroke width of 1/2 inch (12.7 mm). Where access is by means of a private road and the building address cannot be viewed from the public way, a monument, pole or other sign or means shall be used to identify the structure.

Your cooperation is greatly appreciated.
